## Report of Independent Certified Public Accountants

Board of Directors  
Annenberg Foundation

We have audited the accompanying consolidated financial statements of the Annenberg Foundation (a nonprofit organization) (the Foundation), which comprise the consolidated statements of financial position as of December 31, 2013 and 2012, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Annenberg Foundation as of December 31, 2013 and 2012, and the changes in its net assets and its cash flows for the years ended December 31, 2013 and 2012 in accordance with accounting principles generally accepted in the United States of America.

## **Annenberg Foundation**

### **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**December 31, 2013 and 2012**

#### **NOTE A - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

##### **1. Organization**

The Annenberg Foundation (the Foundation) was organized on October 16, 1958 as a stock nonprofit educational organization and was reclassified as a private foundation under Section 509(a) of the Internal Revenue Code effective July 1, 1989.

Ambassador Walter H. Annenberg, the sole shareholder of the stock of the Foundation, passed away on October 1, 2002. Under his will, all of the shares of stock of the Foundation were bequeathed to a trust known as the Annenberg Foundation Trust (the Trust), created by Walter H. Annenberg as settlor and sole trustee on December 1, 1992. The shares are intended to be held by the Annenberg Foundation Trust in perpetuity, subject to the terms and conditions of the Trust.

The Foundation is the sole member of Explore Annenberg LLC, Metabolic Studio LLC, Ballona Urban Ecology Center LLC, and the Center For Performing Arts Finance Company LLC. All intercompany accounts and transactions have been eliminated in consolidation.

##### **2. Basis of Presentation**

The Foundation's consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

The Foundation also classifies net assets and revenues, gains, expenses and losses as unrestricted, temporarily restricted or permanently restricted. All of the Foundation's net assets at December 31, 2013 and 2012 are unrestricted.

##### **3. Cash and Cash Equivalents**

Cash and cash equivalents include cash, time deposits and highly liquid debt instruments with an original maturity of three months or less.

##### **4. Inventory**

Inventory purchased for use primarily in the Annenberg Learner Project is carried at the lower of first-in, first-out, cost or market.

##### **5. Investments**

Investments in marketable securities are stated at fair value. Investment transactions are recorded on the trade date, which results in receivables and payables on trades that have not yet settled as of the financial statement date, and dividend income is recorded when earned. Realized gains and losses are recorded as the difference between historical cost and fair value, and are shown on a net basis. Unrealized gains and losses are recorded for the change in fair value of investments between reporting periods.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

December 31, 2013 and 2012

#### NOTE A - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES – Continued

##### 5. Investments (continued)

Other investments include hedge funds, limited partnership interests, private equity funds and real assets. These investments are recorded at net asset value (NAV). The Foundation also reviews audited financial statements of the underlying funds or partnerships, when available, and other information provided by fund managers or general partners. Investments in such funds do carry certain risks, including lack of regulatory oversight, interest rate risk and market risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in risk factors in the near term would materially affect the amounts reported in the consolidated statements of financial position.

##### 6. Property and Equipment

Property and equipment are carried at cost. Contributed assets are stated at fair market value as of the date donated. Expenditures for major additions and improvements are capitalized; maintenance and repairs are charged to expense as incurred. The cost and related accumulated depreciation of property sold or otherwise disposed of are removed from the accounts, and any gain or loss thereon is credited or charged to income. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are depreciated over the lesser of the estimated useful life or term of the lease.

##### 7. Grants

Unconditional grants are recorded as an expense in the period in which the grant has been approved by the President or a Vice President of the Foundation. Conditional grants are recorded when the grantee has substantially met the conditions of the grant.

##### 8. Tax Status

The Annenberg Foundation has been recognized by the Internal Revenue Service as an organization that is exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(c)(3) and is further classified as a private foundation under IRC Section 4940(a). IRC Section 4940(a) generally imposes a two-percent federal excise tax on “net investment income” as defined by the Code. IRC Section 4940(e) provides for a reduction of the tax to one percent if the Foundation makes sufficient qualifying distributions exceeding a threshold amount determined based on a formula provided by the IRC. During the years ended December 31, 2013 and 2012, the Foundation did not make sufficient qualifying distributions to qualify for the reduced one-percent tax.

The current federal excise tax expense for the years ended December 31, 2013 and 2012 was \$864,284 and \$529,052, respectively.

Deferred taxes are associated with unrealized gains recorded as of December 31, 2013 and 2012. Deferred federal excise tax is computed based on the differences between the carrying value and tax basis of the Foundation’s investments. If investments are sold and a gain is realized, then the Foundation will owe excise taxes. If the investments are sold at a loss, no excise tax is recognized. The deferred federal excise tax expense for the years ended December 31, 2013 and 2012 was \$1,113,477 and \$5,324,977, respectively.

(Continued)

**Annenberg Foundation**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2013 and 2012**

**NOTE A - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES - Continued**

The Foundation is also subject to income taxes on net income that is derived from a trade or business, regularly carried on, and not in furtherance of the purposes for which it was granted exemption. The Foundation's obligation for unrelated business income tax for the years ended December 31, 2013 and 2012 is immaterial to the financial statements taken as a whole, and therefore, no provisions for federal or state income taxes are presented.

Tax positions taken related to the Foundation's tax exempt status, unrelated business activities taxable income and deductibility of expenses and other miscellaneous tax positions have been reviewed, and management is of the opinion that material positions taken by the Foundation would more likely than not be sustained on examination. Accordingly, the Foundation has not recorded an income tax liability for uncertain tax benefits as of December 31, 2013 and 2012, and the Foundation does not anticipate a material change in its uncertain tax benefits for the 12 months following December 31, 2013. As of December 31, 2013, the Foundation's tax periods ended June 30, 2010 through December 31, 2012 for the federal tax jurisdiction remain open to examination.

**9. Concentration of Credit Risk**

Financial instruments that potentially subject the Foundation to concentrations of credit risk consist principally of cash equivalents and investments. At times, the Foundation's cash may be in excess of the Federal Deposit Insurance Corporation limit of \$250,000. The Foundation manages the credit risk associated with cash equivalents and investments by investing its portfolio with high quality banking institutions and investment managers. The Foundation has not experienced any losses as a result of the nonperformance by the custodians and investment managers of its cash equivalents or investments. Further, the Foundation believes that it is not exposed to any significant credit risk that will result in a loss in the future.

**10. Use of Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and gains and expenses and losses during the reporting period. Actual results could differ from those estimates. The most significant estimates and assumptions relate to the determination of the alternative investment values, useful lives of fixed assets, fair value of contributions payable and the reported values of certain of the Foundation's assets and liabilities.

	<u>\$ 8,514,790</u>	<u>\$ 332,274</u>	<u>\$ 417,420</u>	<u>\$ 9,264,484</u>

Rent expense, net of sublease rental income, under the operating leases was \$1,769,221 and \$1,695,370 for the years ended December 31, 2013 and December 31, 2012, respectively.

**NOTE F - FAIR VALUE MEASUREMENTS**

The Foundation has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the hierarchy under ASC 820, *Fair Value Measurements and Disclosures*, are described below:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Financial assets and liabilities whose values are based on one or more of the following:

1. Quoted prices for similar assets or liabilities in active markets;
2. Quoted prices for identical or similar assets or liabilities in non-active markets;
3. Pricing models whose inputs are observable for substantially the full term of the asset or liability; or
4. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques which require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

(Continued)

**Annenberg Foundation**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2013 and 2012**

**NOTE F - FAIR VALUE MEASUREMENTS - Continued**

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Foundation's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Both observable and unobservable inputs may be used to determine the fair value of positions that the Foundation has classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category presented in the tables below may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable (e.g., changes in unobservable long-dated volatilities) inputs.

A review of the fair value hierarchy classifications is conducted on an annual basis. Changes in the type of inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in/out of the Level 3 category as of the beginning of the year in which reclassifications occur.

The following table presents information about the Foundation's assets measured at fair value on a recurring basis as of December 31, 2013 and 2012 and indicates the fair value hierarchy of the valuation techniques utilized by the Foundation to determine such fair value.

**Investments**

- (a) Institutional money-market fund which invests in short term U.S. Treasury and government agency obligations, commercial paper, repurchase agreements and other short-term fixed income holdings. The fair values have been estimated using the NAV per share of the investments. This investment has daily liquidity and a one-day redemption notice requirement.
- (b) Comprised of various mutual funds and unit trusts funds which primarily hold long-only global equities. The fair values have been estimated using the NAV per share/unit of the underlying investments. As of December 31, 2013, investments with fair values comprising 77% of this category have a one- to six-business day redemption period and the remaining 23% have a 15-day redemption notice period.
- (c) Comprised of various commingled hedge fund-of-funds and limited partnership investments. These multi-strategy portfolios primarily invest in long and short positions in U.S. and global common stock, natural resources, and non-directional market neutral strategies, including event-driven, relative value, and credit strategies. Fair values are estimated using the NAV per share of the investments. Investments in this category require a 30- to 180-day redemption notice. As of December 31, 2013, investments with fair values comprising 11% have a 30-day notice period, 20% have a 90-day redemption notice period, 45% have a 105-day redemption notice period, 17% have a 180-day redemption notice period, and 7% are illiquid.
- (d) Comprised of various direct hedge fund and limited partnership investments which include multi-strategy portfolios invested primarily in fundamental long and short positions in U.S. and global common stock, event-oriented, distressed credit, asset-based financing, derivative and private investments. Fair values are estimated using the NAV per share of the investments. Investments in this category require a 30- to 65-day redemption notice period. As of December 31, 2013, these investments can be redeemed quarterly. In the case of private investments, independent third-party firms typically provide valuations.
- (e) Includes direct and fund-of-funds limited partnership investments in private assets. Underlying investments are valued by the general partner for direct investments. For fund-of-funds investments, fair values are estimated using NAV per share. These investments are illiquid and cannot be redeemed.

**Investments designated for others**

- (f) Comprised of two institutional fixed income funds which invest primarily in securities in the Barclays Capital Aggregate Bond Index (64%) and the Bank of America Merrill Lynch U.S. High Yield Index (36%). Fair values are estimated using the NAV per share of the underlying investments which include U.S. treasury securities, government agency bonds, mortgage-backed bonds, corporate bonds, non-U.S. bonds, high yield corporate securities, emerging market bonds, convertibles, preferred stock, mortgages, bank loans, REITS, municipal bonds and closed-end high yield funds. Both funds have daily liquidity.

- (g) Comprised of various passive and active institutional mutual funds which invest in U.S. equity securities. Passive strategies are invested to duplicate the performance of the Russell 1000 (50%) and Russell 2000 (5%) and Mid-Cap (3%) indices. Active strategies are diversified between large cap (31%), mid-cap (3%) and small cap stocks (8%). Fair values are estimated using NAV per share based on the market values of underlying equity holdings. Each fund has daily liquidity.
- (h) Comprised of various passive and active institutional mutual funds which invest in international equity securities. Passive strategies are invested to duplicate the performance of the MSCI All Country World Ex U.S. Index (30%) and MSCI Emerging Markets Index (13%). Active strategies are diversified between international developed (25%) and emerging (17%) equity markets. A global infrastructure fund consisting of equity securities in infrastructure companies also makes up 10% of this category. All fund fair values are estimated using NAV per share based on the market values of underlying equity holdings. Each fund has daily liquidity.
- (i) The exchange traded fund will invest at least 80% of its assets in the securities of the Morningstar Global Upstream Natural Resources Index that have significant business operations in the ownership, management and/ or production of natural resources in energy, agriculture, precious or industrial metals, timber and water resources. The Fund's investment objective is to provide global exposure to the rising demand for natural resources that is being driven by globalization. Fair values are estimated using NAV per share based on the market values of underlying investments. The fund has daily liquidity and invests in both American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs) based on the securities in the underlying index. The Fund may also invest up to 20% of its assets in cash and shares of money market funds, futures contracts, options on futures contracts, forward currency contracts, options and swaps. Each fund has daily liquidity.
- (j) Comprised of commodity-linked derivative instruments, including commodity-index linked notes, swap agreements, commodity options, futures and options on futures that provide exposure to the investment returns of commodities markets, without investing in physical commodities. This portfolio is backed by a collateral portfolio of primarily U.S. Treasury Inflation-Protected Securities (TIPS) and other fixed income instruments including bonds, debt securities and other similar instruments issued by various U.S. and non U.S. public or private sector entities. Fair values are estimated using the NAV per share based on market values of the underlying investments. The fund seeks to outperform the Dow Jones-UBS Commodity Index and has daily liquidity.
- (k) Comprised substantially of publicly traded equity securities which are engaged principally in real estate activities, including ownership, trading and development of income-producing real estate and include real estate investment trusts (REITS). The weightings of fund holdings approximate the composition of the FTSE EPRA/ NAREIT Index which is a market capitalization-weighted real estate index designed to represent publicly traded equity REITS and listed property companies globally. The index covers both developed and emerging market countries, and represents 48 countries worldwide. Fair values are estimated using NAV per share based on market values of the underlying investments. The fund has daily liquidity and is passively managed seeking to duplicate the performance of the index.

**NOTE F - FAIR VALUE MEASUREMENTS - Continued**

The following provides a brief description of the types of recurring financial instruments the Foundation holds, the methodology for estimating fair value, and the level within the hierarchy of the estimate:

**Cash and Cash Equivalents**

Cash and cash equivalents are recurring fair value measurements. This category includes cash and highly liquid investments with a maturity of three months or less which are considered Level 1 inputs.

**Investments**

***Fixed Income***

Fixed income securities including U.S. treasury obligations, government agency bonds, corporate bonds, non-investment grade high-yield credit, commercial and residential mortgages, bank loans, preferred securities and non-U.S. credit obligations. Directly held fixed income securities are valued at quoted market prices and are classified as Level 2 inputs. This category also includes institutional mutual and exchange traded funds which also invest in fixed income securities which are also Level 2 inputs. Fair values are estimated using net asset value per share based on market values of the underlying holdings.

***Equities:***

Directly held equity securities are valued at quoted market prices reported from respective markets and are classified as Level 2 inputs. This category also includes institutional mutual and exchange traded funds which also invest in equity securities and are considered Level 2 inputs. Fair values are estimated using net asset value per share based on market values of the underlying holdings.

***Hedge Funds:***

Actively managed funds and funds-of-funds which invest in equities, credit securities and non-correlated assets. While generally less liquid than traditional fixed income or equity investments, hedge funds provide stable returns and preserve capital in down market environments. Market values are determined using net asset value per share as provided by an independent administrator. Market values are provided by independent custodians and / or fund managers based on third-party valuation assessments. These assets are classified as Level 3 inputs.

***Limited Partnerships:***

Less-liquid investments in privately owned assets managed by a general partner. Limited partnership investments, like hedge funds, are expected to outperform public markets over a market cycle, and tend to invest in non-correlated assets including real estate, distressed credit securities and private equity investments which provide attractive long-term returns. These investments are also expected to protect against inflation and preserve capital in down market environments. Market values are provided by the general partner supported by independent third-party valuation estimates. Investments are classified as Level 3 inputs as they are unobservable.

**NOTE F - FAIR VALUE MEASUREMENTS - Continued**

*Private Equity.* Limited partnership equity investments in private companies with a global orientation which are expected to significantly outperform public equity markets over a market cycle. These investments are illiquid as capital is called by general partners over a number of years as investments are made. Market values are provided by the general partner supported by independent third-party valuation estimates. Investments are classified as Level 3 inputs as they are unobservable.

**NOTE G – ASSETS DESIGNATED FOR OTHERS**

As a major supporter of The Philadelphia Orchestra Association (the Association), the Foundation worked closely with the Association throughout its Chapter 11 Bankruptcy to ensure the organization's sustainability. In an agreement dated September 15, 2003, the Foundation granted \$50 million to the Association's endowment. During the Chapter 11 reorganization, the Foundation and the Association collaborated on a new trust agreement to redefine the parameters and reiterate the restrictions on those endowment funds (the Trust Agreement), which provides for the transfer of certain assets to the Philadelphia Orchestra Association Grantor Trust (the Grantor Trust), with The Northern Trust Company, as trustee, for the Association's use and benefit, on terms and conditions set forth in the Trust Agreement.

The confirmation of the Association's Plan of Reorganization on June 28, 2012 constitutes approval of the Trust Agreement and authorization for the Association to enter into the Trust Agreement. The parties executed a Side Letter dated September 4, 2012 that governs their conduct in connection with certain administrative provisions of the Grantor Trust. The Side Letter memorializes the initial funding of the Grantor Trust with assets whose fair value at August 28, 2012 was \$45,603,170 before being reduced by certain fees. The Office of the Attorney General of the Commonwealth of Pennsylvania approved the Trust Agreement and Side Letter on November 2, 2012.

The Trust Agreement and Side Letter contain conditional terms that preclude the Association from recording the aforementioned assets on its consolidated statement of financial position.

The Side Letter also provides for an annual fiscal draw from the Grantor Trust in the amount of 5.5% of the three-year moving average of the endowment. The Foundation approved a September 2013 draw from the Grantor Trust to the Association for fiscal 2013/14 operating support in the amount of \$2,459,105.

Cash and cash equivalents designated for others was \$501,101, and \$3,261,145 at December 31, 2013 and 2012, respectively. Investments designated for others was \$47,034,518, and \$41,240,123 at December 31, 2013 and 2012, respectively. These assets are held in custody at The Northern Trust Company under the Trust Agreement for the benefit of the Association.

**NOTE H - STANDBY LETTER OF CREDIT**

The Foundation is the sole member of Center for Performing Arts Finance Company LLC (Finance Company), a special purpose limited liability company formed under the laws of the State of Delaware on or about October 4, 2011, and qualified to do business in the State of California on or about October 6, 2011.

On August 31, 2012, the Finance Company entered into a reimbursement agreement with The Northern Trust Company (Northern Trust) to provide a \$38,500,000 standby letter of credit (Northern Trust Letter of Credit) to support a portion of the loans (CNB Loans) made by City National Bank (CNB) to the Wallis Annenberg Center for the Performing Arts (WACPA), a separate nonprofit corporation exempt from taxation under section 501(c)(3) of the Internal Revenue Code, dedicated to the preservation and transformation of the historic landmark Beverly Hills Post Office. The primary purpose of the CNB Loans is to finance the renovation of the Beverly Hills Post Office and construction of an additional integrated theatre building on the Beverly Hills Post Office site. The Foundation guaranteed the obligations of the Finance Company under the Northern Trust reimbursement agreement. The Standby Exposure Fee on the Northern Trust Letter of Credit is 0.625% annually.

The Finance Company executed a reimbursement agreement on or about August 31, 2012 with WACPA whereby WACPA agreed to reimburse the Finance Company for any payment made by Finance Company to reimburse Northern Trust for any draw under the Northern Trust Letter of Credit. As of December 31, 2013, the Northern Trust Letter of Credit was \$37,096,797 and no draw had been made.

**NOTE I - SUBSEQUENT EVENTS**

The Foundation evaluated its December 31, 2013 consolidated financial statements for subsequent events through October 17, 2014, the date the consolidated financial statements were available to be issued. The Foundation is not aware of any subsequent events which would require recognition or disclosure in the consolidated financial statements.
